Course Description:

This program is an extension of the P&ID Introduction program and is intended for users or administrators who require the ability to control and customize the working environment of AutoCAD P&ID.

Upon completion, users will be comfortable with performing the required customizations to setup AutoCAD P&ID according to specific company standards, project needs and user requirements. Attendees will also learn the techniques to create custom tag formats, annotations styles and different types of custom P&ID symbols.

Learning Objectives:

- Project setup
- File name format
- Project and drawing properties
- P&ID class properties
- P&ID custom symbols
- Tag formats
- Annotation styles
- P&ID Painter Settings
- Pipe Specs in P&ID
- Off page connectors' customization
- Data manager customization
- Custom reports
- Report creator

Supplemental Learning:

- AutoCAD Plant 3D Introduction
- AutoCAD Plant 3D Intermediate
- Navisworks for Plant Design
