Course Description:

Bluebeam has been designed to streamline your current workflow and reduce paper based workflows. Our industry experienced trainers will focus on PDF tasks specific to Architecture, Construction and Engineering. By creating a custom, focused course we will get you up and running with minimal learning curve.

Learning Objectives:

- Overview of Interface
- Navigation; Zoom and Pan, View PDF side by side
- Markup; clouds, callouts
- Measure; measure lines, areas, volumes and more
- Capture; capture and email pdf markups
- Tool Sets; make custom tools preset with colour and styles for your specific tasks
- Markups List; useful for estimating and quantities
- Comparison; find differences between multiple PDFs
- Stamps; make and stamp one or more PDF
- Flatten; secure a PDF so others can't change your markups
- Studio Sessions and Projects; sharing screen and files with other team members
- Punch Lists; speed up the commissioning, documenting deficiencies and contract admin processes
- Bluebeam Administrator; the overall setup of Bluebeam sheet sizes and more

Supplemental Learning:

- Revit for Project Managers
- Revit Fundamentals
