Course Description:

The Autodesk® Vehicle Tracking training program is designed for civil engineers, planners and architects using the Autodesk AutoCAD based software.

Vehicle Tracking transportation analysis and design software is built for vehicle swept path analysis. Engineers, designers, and planners can evaluate vehicle movements on transportation or site design projects.

Learning Objectives:

- Autodesk Vehicle Tracking Interface
- Swept Path Analysis
- Editing Swept Paths
- Animating Vehicles in 2D and 3D
- Creating and Editing Vehicles
- Parking Layout and Design
- Roundabout Design
