

# Bluebeam Ultimate

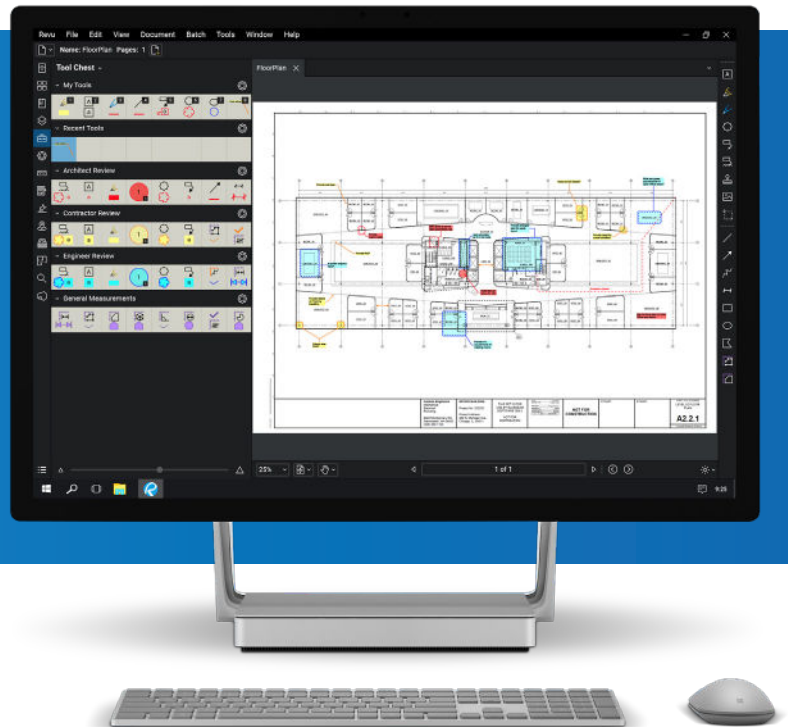

**Price: \$5,000 + tax**

The **Bluebeam Ultimate** bundle is our all-inclusive plan for implementing Bluebeam. This offer includes an in-depth planning session, setup, basics and advanced onboarding and extensive support post-deployment. We will ensure that your team will be Bluebeam experts by the end of it!

The **Bluebeam Ultimate** bundle is the perfect PDF-based solution if you are looking to:

1. Connect design and construction processes with project teams
2. Manage all project communication with a document-based collaboration platform and advanced markup and automation tools
3. Collaborate with project partners on the same documents in real time using the built in Studio collaboration
4. Easily create 2D and 3D PDFs from AutoCAD®, Revit®, Navisworks®, Civil 3D® and more
5. Track all information written on your plan with a Mark Up List

Bluebeam delivers PDF creation, editing, markup and collaboration technology for your design and construction workflows. You'll boost productivity by leveraging markup data across the entire project lifecycle, and streamline processes to get more done in less time.

## This bundle includes the following services:

### 1. Planning

Our team will review your current and desired workflow, folder structure and other requirements in order to help you establish new goals to implement Bluebeam.

### 2. Orientation, Setup and Configuration

Along with your team, SolidCAD will help configure tool chests, Bluebeam Studio and review administrative setup.

1

Planning

2

Orientation, Setup  
and Configuration

3

New End-User  
Onboarding Content

4

Go-Live & Deployment  
Support

5

Project  
Close-out

### 3. End-User Onboarding and Training

Our technical team will provide two-day training to ensure your employees are ready to work in Bluebeam. The first day will teach users the basics of Profiles, Tools Chests Markup Lists and Collaboration, while the second day will be dedicated to understanding the advanced functions of Bluebeam Revu such as estimating, document management and administration.

### 4. Go-Live & Deployment Support

SolidCAD will be there when you Go Live! You will have full access to six (6) hours of technical support with our team for project mentoring. In addition, we will organize a post-live session to answer any question and/or concerns your team may have.

### 5. Project Close-out

SolidCAD guarantees to be with you every step of the way. Our team will go over metrics and lessons learned including next steps for the future.

### 6. Additional Details:

- Manual included
- Certificate of Completion for all training conducted
- Laptops
- Six (6) Hours of Go-Live/Deployment Support
- Travel for on-site training is included (up to 50 km from a SolidCAD office, anything further will be an additional cost)
