CANADA-SASKATCHEWAN JOB GRANT (CSJG)

SOLIDCAD CAN SUPPORT YOU

We encourage businesses to take advantage of the Job Grant available, providing direct financial support to employers who wish to purchase training for their employees.

SolidCAD supports various government programs to boost productivity through technology adoption. Our training facilities are accredited by the Labor Market Commission and all of our courses meet the requirements of the Act.

The Canada Job Grant helps employers train new or existing employees for jobs that need to be filled. This flexible program is designed to meet the needs of businesses of all sizes, in all industries and regions. Having the right skills helps employees excel and succeed in today's fast-paced labour market.

- The Canada-Saskatchewan Job Grant (CSJG) is an employer-driven program that helps businesses and non-profit organizations train new or existing employees for available jobs, and provides more opportunities for unemployed and underemployed workers to receive training.
- Through the program, the employer contributes one-third of the training cost, while the federal and provincial governments contribute the remaining two-thirds.
- Training must be provided by an eligible third-party training institution and must be completed within one calendar year from the start date.
- Employers can make multiple grant applications to a maximum of \$100,000 per fiscal year, and up to \$10,000 per individual trainee.

"I have used SolidCAD for the last four years, since purchasing several new software products that required training and upgrading of staff skills and knowledge. I have found the trainers to be professional, knowledgeable and very personable/approachable. They made the training sessions both informative and interesting while at the same time being efficient, well developed and progressive in a way that was well calculated. The training has resulted in a direct increase in productivity, which in turn increases staff morale and management satisfaction.

I would definitely recommend SolidCAD to other companies/businesses looking for a training provider to aid in their successful bottom line.
