Bluebeam Launch

OVERVIEW VALUE

Bluebeam Launch provides a strong starting point for teams new to Bluebeam Revu, enabling rapid adoption and immediate productivity gains.

This foundation package establishes foundational tools, configurations, and workflows to ensure users can confidently perform structured and efficient PDF reviews. By focusing on usability, consistency, and training, organizations can quickly improve collaboration, reduce errors, and accelerate project delivery.

SERVICES & DELIVERABLES

- Initial discovery session (1 session) and onboarding alignment
- Configuration of Bluebeam Revu interface (1 interface) and main settings
- Standardization and setup of markups and measurements (up to 16 tools)
- Customized toolbar configurations (up to 3 toolbars)
- Creation and deployment of a personalized Bluebeam profile (1 profile)
- Bluebeam user training (up to 10 users - 1 full-day session)
- Documentation of markup enhancements executed (1 document)
- Remote mentoring and post-implementation support (2 hours total)

SYSTEM REQUIREMENTS

- Supported Bluebeam Revu installation (1 environment)
- Workstations meeting minimum performance requirements (up to 10 users)
- Reliable internet connection for remote delivery (1 connection per user)
- Access to user permissions for configuration (admin access required)
- Final requirements confirmed during discovery (1 session)
