

Forma Site and Building Design Foundation Pack

Date | Version:
2026-07-30 | v1.0

Future Services:

- Configuration of Forma Design Collaboration
- BIM Optimization

Duration: 3-4 weeks
Delivery: Remote

Pricing:
\$3500 CAD

This instructor-led course is designed to support Continuing Professional Development (CPD). Participants will be provided with a certificate of completion and should consult their professional association regarding eligibility and reporting requirements

Forma Site and Building Design Foundation Pack

OVERVIEW VALUE

Forma Site and Building Design enables teams to quickly visualize, analyze, and iterate on site and building concepts using real-time data and design insights. This supports faster decision-making, improved coordination, and more efficient early-stage workflows.

This foundation package will help teams make informed design decisions, reduce rework, and improve project coordination.

SERVICES & DELIVERABLES

- 30 min Project Kick off Meeting
- 2 - 3.5hr Forma Site and Building Design Training Sessions
- 2 - 1hr Support Sessions

IMPLEMENTATION ROADMAP

Phase	Outcome
Week 1	Project Kick Off Meeting
Week 2	2 - half day Forma Site and Building Design Training Sessions
Week 3	Support Session
Week 4	Support Session

ASSUMPTIONS

- Sessions are delivered via SolidCAD Forma datasets
- Does not include any Forma Admin Setup
- Does not include any configuration of Forma on client hub
